What's next for your church?

Pray

for the world, the unreached, and your church as you take on the salvation of an entire people group.

Choose a
People Group

to adopt as your responsibility, where you'll commit to planting churches and spreading the gospel no matter what obstacles or changes occur.

Take a
Survey Trip

to your chosen people group and learn about them, spend time with them, pray for them. Let God speak to you about how and where he wants you to serve this group.

Share the Vision

with your church, small group, sunday school class, missions committee or elders. Once your church is ready, sign a Letter of Agreement solidifying your commitment to an unreached group.

Create a Master Plan

for your project based on what you learned during your research and survey trip. This should include timelines, goals, and strategies for discipling your chosen people and beginning a church planting movement among them.

Gather Believers

into fellowships. Continue to disciple the believers, then teach them to disciple new believers and multiply their groups or churches.

Send Workers

to your chosen unreached people group to begin sharing the Good News and discipling new believers.

Train

your church for the task ahead using Kairos courses, monthly webinars, and other resources offered by U4theU.

Stay Involved

with your group through on-site visits, encouragement and support to the overseas workers. Plan programs and events at your church to keep the congregation involved and excited about your work. Continue praying for the effectiveness of your ministry and the salvation of your chosen unreached group.

Disengage

when you have successfully begun a church planting movement and the fellowships of believers are multiplying on their own. You've successfully reached a previously unreached people group! Now it's time to choose a new unreached group and start again.
